# Collection Analysis Summary

## South Central High

Thank you for using Mackin's free Collection Analysis service. We will be contacting you to review the analysis and discuss solutions to improve your collection. Please let us know if you have any additional questions or requests at anytime.

When completing the analysis, we first indicate the average age and number of titles in each part of your collection. We then apply a mathematical formula utilizing North Carolina's IMPACT standards to derive the number of additional titles needed (if any) to achieve a balanced collection that would meet IMPACT's Outstanding rating for a school with your reported enrollment. Since IMPACT standards offer a range for collection distribution, we highly suggest using your professional judgment to modify the recommendations, if necessary, in order to best meet the needs of your school community.

The following summaries highlight the areas that seem the most in need of attention; complete details about your collection are presented in subsequent sections. We encourage you to review the report closely in order to determine your specific size, age and weeding needs.

- ✓ With the information you supplied, we successfully categorized 99.8% of your MARC records. If you would like to improve this percentage please contact your Mackin Collection Analyst at 1-800-245-9540.
- ✓ You currently have 20,564 titles in your collection, of which 20,522 were classified.
- ✓ Your collection meets the Minimum Guidelines of North Carolina's IMPACT Standards based on your books per student ratio and average age.
  - ✓ Throughout the collection, the average copyright date is 1996 or 16 years old.
  - ✓ Overall your books-per-student ratio is 13. This calculation does not include the "Unclassified" Category.
- ✓ The following data is provided to assist reporting your values to the state Annual Media and Technology Report (AMTR).
  - ✓ The average age of your Dewey 500s is 1999
  - ✓ The average age of your Dewey 600s is 2001
- ✓ When looking at the overall balance of each Dewey section, additional titles needed are 19,186.
- ✓ Size deficits are greatest in the Easy, 900s and General Fiction.
- ✓ The oldest areas are the Reference, 800s and 200s.

IMPACT Collection Guidelines are as follows:

- ✓ Outstanding = 20 books per student and an average age of 10 years
- ✓ Developing = 15 books per student and an average age of 12 years
- ✓ Minimum = 10 books per student and an average age of 16 years

For more information on IMPACT: Guidelines for North Carolina Media and Technology Programs, go to: <http://www.ncwisowl.org/Impact/default.htm>.

*"Research tells us that a school library media center that provides up-to-date, accurate, and attractive resources managed by a professional school library media coordinator who collaborates with teachers to augment and enhance classroom instruction results in increased test scores, especially in reading".*

- Howard N. Lee, Chairman, North Carolina State Board of Education, 2006.

# Weeding Age Chart

The weeding list indicates the titles in the collection that are as old or older than the ages you requested below.

**We are not necessarily recommending removal of these titles**, but because of their age, you may wish to evaluate them for appropriateness and condition. Please keep in mind that many books may no longer be in print, so you will need to consider that before discarding an item. For example, you may not be able to find replacement items for some Caldecott and Newbery Medal winners.

For more information about weeding contact Collection Management at 1-800-245-9540.

# Weeding Consideration

## South Central High

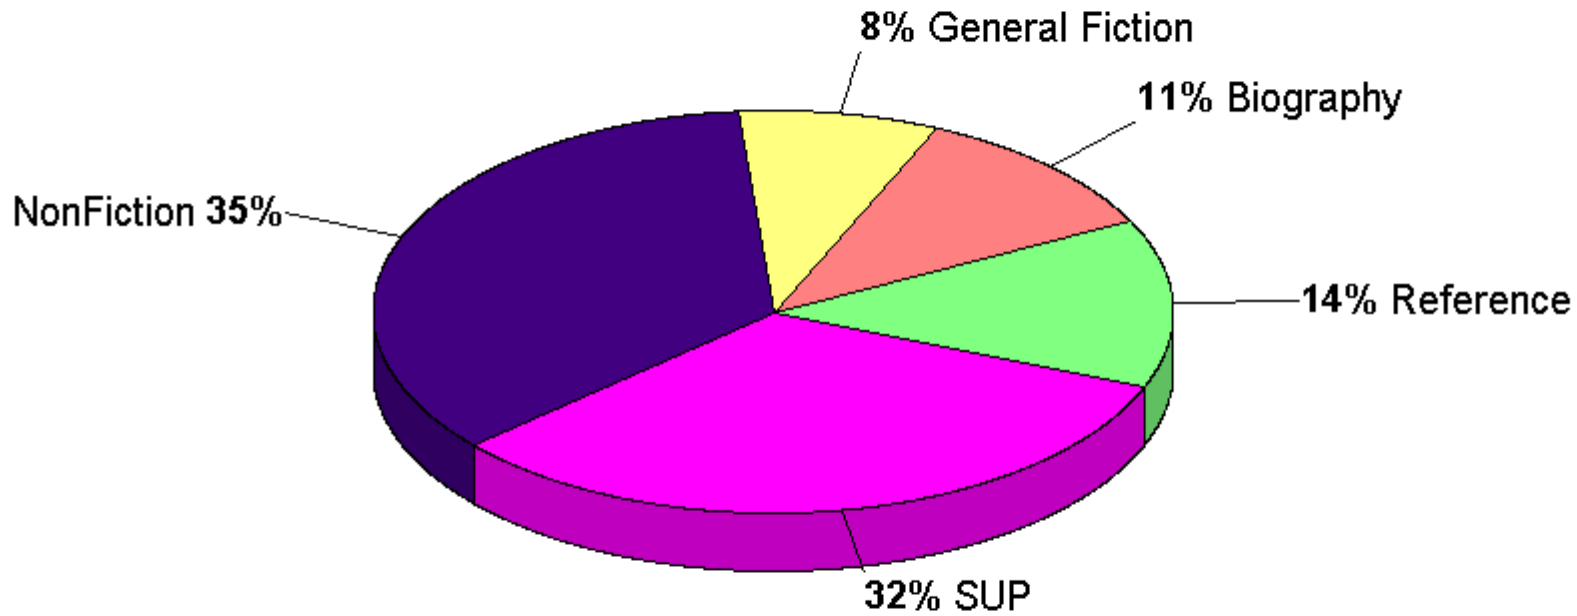

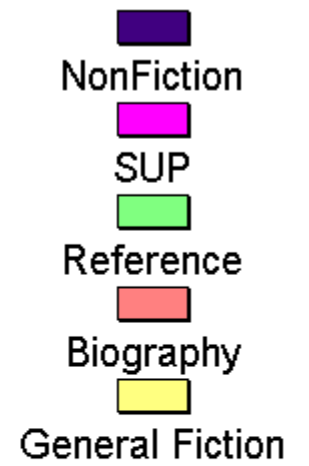

The following information has been formulated using the parameters from your Weeding Age Chart. For each category, you can learn which items may not meet your age standards. To view your Weeding Consideration broken down by Dewey 10s, refer to your online analysis in your account at [www.Mackin.com](http://www.Mackin.com)

# Weeding Overview

We have prepared some guidelines for weeding, but keep in mind that every library is different; every library has unique priorities and problems. Not every suggestion or guideline for weeding in this section will fit your library, so feel free to adapt as necessary.

## What is Weeding?

*Weeding* is the removing of materials from a library collection in a systematic, deliberate way and is an ongoing part of collection development. *Informal weeding* is an ongoing process that often occurs as materials are checked-in or checked-out. *Formal weeding* is a planned process that is not superseded by informal weeding. A rotation schedule can be established allowing for systematic weeding over time.

## Why is Weeding Important?

Every collection needs to be weeded on a fairly regular basis. Not only does each library have limited space, but collections need to change to stay abreast with changes in the school community and the goals of the library.

Focusing on the quantity of materials in your collection will not improve their quality; in fact, it can actually harm the collection by making it difficult to find the most useful materials, and it also makes your library appear well stocked, even though it isn't. **Funding is far more likely to appear for a library that is not completely full of books.**

## The CREW Method

The CREW Method of weeding is one popular system many librarians use. CREW stands for Continuous Review, Evaluation, and Weeding. The acronym MUSTIE sums up the main criteria used in the CREW Method:

- M = Misleading--factually inaccurate**
- U = Ugly--worn beyond mending or rebinding**
- S = Superseded--by a new edition of by a much better book on the subject**
- T = Trivial--of no discernible literary or scientific merit**
- I = Irrelevant--to the needs and interests of your community**
- E = Elsewhere--material may be obtained expeditiously through interlibrary loan**

Additional criteria to look at for weeding is the frequency that an item is checked out and whether there are multiple copies when only one is needed. Items you may want to consider keeping include classics, local history yearbooks, titles on current reading lists, biographical sources, award winners, school publications, and out-of-print titles that are still useful.

## How to Weed

Design a plan that includes a schedule and goals for the weeding process. Schedule weeding during an uninterrupted time. Have post-its, carts, and boxes available. Look at each book and apply your criteria. If pulling the book, note the reason and place on a cart for mending or in a box for disposal. Having documentation for removal is important in case others question it and it may help with budgeting. Don't forget to remove records from the circulation system.

## Take Action

If you don't have a weeding plan in place and would like help developing a plan, please call Collection Analysis at 800-245-9540.
